To whom it may concern,

I was introduced to Kyle from Total Construction Solutions by my landlord. Kyle was constructing the building and my landlord recommended him for the permitting and for the interior construction space. I ended up negotiating my contract price with him and could not have made a better choice. Kyle worked on acquiring the permits needed for the work and ensured everything was ready to go. Kyle provided clear communication and was always available to make sure all my questions and concerns were addressed. Total Construction Solutions team was able to meet all the specifications and ensured everything was on schedule and budget. Few changes were made to the equipment and finishes during the project and they were well coordinated to ensure the final look and fit is what we wanted and needed. I am very pleased with the professionalism and the quality of work performed by Total Construction Solutions and would highly recommend them for all your construction needs.
